CYAN — Disilicate material
GREY — Hybrid Material
BLUE — Zirconia material

Sustainable attitude

Join the recycling protocol for membrane boxes. Deposit them in the **Smart Pack Box** and make everything more eco-friendly.

Full traceability of the work

See full job history using code 20190406411XXXX at coruslink.com

Positive experience

Showing the patient the products in their packaging before they are placed **adds value** to the whole workflow.

Corus

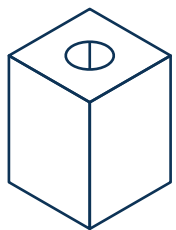

Protocols
Prosthetics
Services
Training

The Smart Pack system consists of exclusive packaging in which all Corus products are delivered to you. They have been carefully designed to improve your organisation and efficiency, facilitate the presentation of your work and enhance your patients' experience and their impression of your clinic. By using them you add value. By recycling them you increase your sustainability.

Recycle. Order. Simplify.

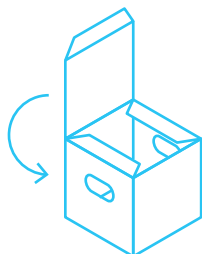

INSTRUCTIONS

Assemble the two boxes you have just received as shown and place the empty membrane boxes inside them:

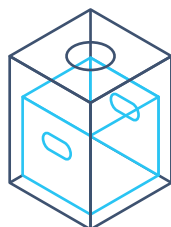

1

Assemble the Smart Pack Box.

2

Assemble the Delivery Box by placing the lid on the back.

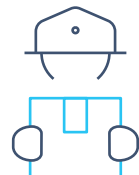

3

Insert the Delivery Box into the Smart Box and close it. The round hole will be used to insert the membrane boxes.

4

When the Delivery Box is full, take it out and close it with the stickers provided.

5

Call Corus and we'll arrange for a courier to pick it up.

THE POSTER ON THE BACK HAS BEEN CREATED FOR YOU. HANG IT UP SOMEWHERE VISIBLE SO THAT YOUR WHOLE TEAM IS AWARE OF THE SMART PACK SYSTEM CYCLE.
